Trouble Shooting: How to disable the "Do you want to view only the webpages content that was delivered securely?" popup

Following are steps.

1) Go to Tools --> Internet Options --> Security Tab.

2) Here select the proper zone under which your custom pages or the "HTTP" pages came.

button.

4) Here go to Miscellaneous --> display mixed content and select "Enable" option as shown in the below screen shot.

Trouble Shooting: How to disable the "Do you want to view only the webpages content that was delivered securely?"

popup
