

Networking: How to manually configure br0 ?

For Static Host Configuration

1. Go to /etc/network/interfaces and append these line

```
auto br0
iface br0 inet static
    address 10.10.0.1
    netmask 255.255.0.0
bridge_ports eth1
bridge_fd 9
bridge_hello 2
bridge_maxage 12
bridge_stp off
```

2. Save the changes.

3. Restart the networking using the command

invoke-rc.d networking restart.

For Dynamic Host Configuration

1. Go to /etc/network/interfaces and append these line

```
auto br0
iface br0 inet dhcp
bridge_ports eth1
bridge_fd 9
bridge_hello 2
bridge_maxage 12
bridge_stp off
```

2. Save the changes.

3. Restart the networking using the command

invoke-rc.d networking restart.
