General: What are the roles and capabilities supported?

The {avatar_c}™ - {edition_name} platform supports 3 categories of users.

1. Administrators - who are primarily responsible for
    - Creating and maintaining approved versions (golden images) of virtual machines for other to use
    - Managing (creation/deletion/modification of) user accounts
    - Patch management for the various golden images required by the users
2. Faculty - who, in addition to the privileges enjoyed by students, can
    - Also attach to consoles of student machines to collaborate/oversee more efficiently
    - Tag any VM instance for a demo
3. Students - who can
    - Play, pause, resume and stop their machines and access them either locally or remotely as required.
    - Deploy specific virtual machines of interest to them for work
    - Preserve/retrieve versions of their individual machines at will
    - Reset their individual machines to any previously stored state
    - Share their consoles with their teachers whenever required.
