

# Screen Display: How to disable the Java applet viewer?

(Needs administrative privileges on {avatar b } server.)

To disable the java applet viewer edit

/opt/infracc/controller/app/infracc/infracc\_config.py, and make the following changes.

Original Line

```
USE_VM_CONSOLE_APPLET = True
```

Modified Line

```
USE_VM_CONSOLE_APPLET = False
```

Restart apache after modifying infracc\_config.py by

```
service apache2 restart
```
